

## 37 SMITHIA Aiton (Fabaceae)

### SPECIES COVERED

*S. conferta* Sm. syn. *S. geminiflora* Roth.

*S. salsuginea* Hance

*S. sensitiva* Aiton

### OTHER ASPECTS COVERED

Regional and Other Names

Habit and Habitat

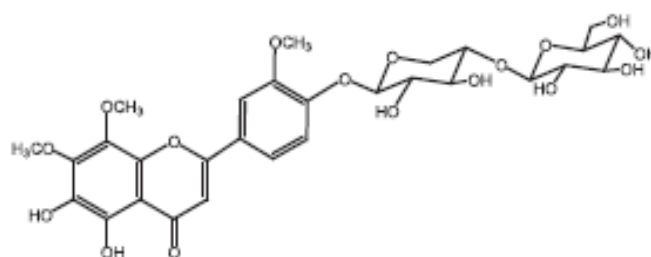

Ethnobotanical Studies

Chemical Studies

Pharmacological and Biological Studies

Toxicological Studies

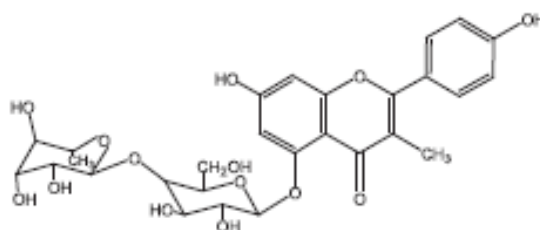

Certain Constituents of *Smithia* Species

5,6-Dihydroxy-3',7,8-trimethoxyflavone-4'-O-β-D-glucopyranosyl-  
(1→4)-O-β-D-xylopyranoside

736

*Smithia* Aiton

4',5,7-Trihydroxy-3-C-methylflavone-5-O-α-L-rhamnopyranosyl-  
(1→4)-O-β-D-galactopyranoside
